Hello, my name is Rosalie Angelillo, a local artist and muralist living in San Bruno. I have been looking into inquiring for months about beautifying downtown San Bruno, specifically with revamping the old mural panels that are worn away, and putting a new, community based eye catching mural to not only drive people to visit, but to encompass the residents to see their town walls covered in meaningful artwork by a fellow local. I heard there was no funding for grants for murals, but I highly call for a consideration of a grant to be passed.

Please, this would make the town look so much more welcoming and inclusive. I strive to create this mural myself, but if not, any local muralist should complete this as soon as possible. Please inquire at my website under "murals" to see my previous work if interested in considering myself for this project.
